# QUESTION-ANSWER RELATIONSHIP

In the  
Text

In My  
Head

## Right There

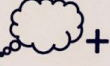

The answer is right  
on the page.

Who...?  
What...?  
Where...?  
When...?  
How...?

## Author & You

Use your background  
knowledge and what  
you have read to make  
an inference.

+

Predict...  
Do you agree...?  
Why did the author...?

## Think & Search

Search for the answer  
on different pages.

Retell...  
Summarize...  
Compare and Contrast...  
Give examples...

## On My Own

Use your background  
knowledge and  
experiences to tell  
your opinion.

Did you know...?  
Have you ever...?  
How would you feel...?

Make a boat that can really float. How can you modify your design so that it would be a fun bath toy?	<a href="#">Fold and fly</a> different styles of paper airplanes. How can the <a href="#">science of flight</a> help you design a better plane?	Look closely at various kitchen tools. How do you think they work? How could <a href="#">they be improved</a> ?	Transform a room of your house into a castle! What features do you think are most important in <a href="#">real castle designs</a> ?	Create the <a href="#">ultimate creative rolling car</a> that can go down a ramp. How many different ideas can you try?
Create a gap that is about 20 centimetres across. Use different materials to create a simple bridge. How can you determine which bridge is the strongest?	Do batteries really power the world? Go on a scavenger hunt to find things powered by batteries. What kind of batteries can you find?	Transform a sheet of paper into a fan. How many different designs can you come up with? How else can you <a href="#">transform paper</a> ?	Louis Braille wanted to <a href="#">make reading easier for other blind people</a> so he created a code of raised dots. Can you write a message <a href="#">in Braille</a> ?	Watch a movie about sports. How would you describe the different forms of motion? What needs to happen to move <i>fast</i> ?
<a href="#">Discover how LEGO bricks are made</a> . Can you use <i>your</i> LEGO to make one really big LEGO brick?	Plan and make <a href="#">a model playground</a> . Who will you make a model playground for?	FREE SPACE	Build a car or house entirely out of edible materials. Consider having <a href="#">an edible car race</a>	Design and build a pair of scissors that can cut through dough. What can you use for the blades?
Experiment with freezing different mixtures of water and salt. What do you notice about the amount of salt and the time it takes to freeze?	Build a pendulum by tying a weight on a string. What do you notice about the swing when you change the length? How can you use this as a timer?	Did you know that windshield wipers were invented by <a href="#">Mary Anderson</a> ? Experiment with making a model windshield wiper. What would you invent for cars?	Design a town square for <a href="#">the heart of a healthy community</a> . What makes a community healthy and strong?	Make a building with multiple floors. What do you need to do to ensure that the building is stable? Can you install <a href="#">an elevator</a> ?

Take apart a click-to-write pen to see if you can <a href="#">get a closer look at the mechanisms</a> that make it work.	Grab three balls, go outside, and <a href="#">simulate a supernova</a> . What do you notice about the maximum height?	Find six things that are held together with screws. Pick one and use a screwdriver to <a href="#">look inside</a> .	Create a tool that helps you measure 6 feet accurately. What makes measuring this distance challenging?	Using <i>only</i> paper or index cards, design a tall tower that can support an object. What object will you try to support?

TV learning Home Learning | Papa Kāinga TV will be shown, **free to air**, on **TVNZ channel 2+1** and on **TVNZ on Demand**, as well as on **Sky Channel 502**. It will run from 9am to 3pm on schooldays with programming for children and young people aged 2 to 15, as well as for parents. Home Learning TV will initially be on air for one month – with provision to extend beyond that depending on the COVID-19 situation.
